

**SEEMYCITY**

## THE SEEMYOSLO EXHIBITION

With the help of [Imaging.no](http://Imaging.no) and [Doga](http://Doga), SeeMyCity was able to set up an amazing and eye catching exhibition that could be seen in the hall at Doga during 10 days in August/September 2012. The pictures were partly printed on [aluminium](#), partly on 16mm acrylic (looks like glass) and partly [high quality photo paper](#). The aluminium prints were 50x50 cm, some paper prints mounted on plates were 30x30 cm and 2 huge photos of 80x80 cm were printed on the very exclusive material called Acrylic plates and looked absolutely amazing. The last part of the exhibition consisted of 40 smaller prints, printed in the vintage polaroid style, showing the many sides and colours of Oslo.

The pictures in this picture are taken by [Solveig Lae](#), [Stig Jøssund](#), [Kerstin Krogh](#), [Marius Falkenberg Waldal](#), [Therese Melina Alvestad](#), [Hannah Martine Nielsen](#), [Tom Lund](#), [Anca Moseng](#) and [Marianne Hope](#)
